Pre-Symposium Class - Option 4

Working with the Subtle Energy Spectrum

INSTRUCTOR: DAN MANGUM

OCTOBER 25, 2022 – 8:30AM TO 5PM

Early 20th century French radiesthetists discovered and researched a spectrum of subtle energies found in both the natural world and utilized in ancient civilizations. These energies have a wide range of attributes, some being beneficial and some harmful. More recently, Dr. Ibrahim Karim developed his science of Biogeometry working with some of these energies.

This class will cover this history and the nature of the spectrum. We will also learn to use some of the unique specialized tools that were developed to detect and work with the spectrum, such as the virtual cone pendulum, BG3 pendulum, horizontal and vertical pendulum set, the Turenne pendulum, and some tools you can make yourself. The characteristics of the individual "colors" of the spectrum, where they may be found, how they affect us and our environment, and how we can either work with or mitigate them, or even generate them will also be covered. This will include the testing of various objects and energy tools to see which subtle energies they radiate or work with. The class will be hands on.

Participants should have at least either the Virtual Cone pendulum or the Horizontal and Vertical Pendulum Set, as well as a standard dowsing pendulum. A limited number of these tools will be available for purchase at the class. Contact Dan for more information on the tools and how to purchase them ahead of time.

Attendees should bring gemstones, jewelry, dowsing tools, amulets, prayer beads, energy tools, or other items for energetic testing in class. Whatever you have and want to test.

INDIVIDUAL ENROLLMENT BY SEPTEMBER 15, 2022

2022 RADIONICS SYMPOSIUM

Taught By The Masters

1PM - 2PM – BRIAN BESCO

Energy Patterns in Physical Reality. Everything is energy. Disease and imbalance can be seen as simply patterns of energy. Using discernment as a tool, we will discuss ways to clear nonbeneficial energy patterns that manifest in our physical world. These simple techniques can bring about deeper and lasting changes in our daily work. We will learn to easily clear these patterns of creation, at their source. Guided journey work will be included in the presentation, as a tool in the discernment process. And of course, we will touch on Tensor Technology as a short-cut version of holding this space with your instruments.

Brian Besco has been making leading-edge subtle energy tools for nearly a decade. The Tensor Rings are used in dowsing, healing work, radionics, and as standalone tools to restructure non-beneficial energy fields. Brian has spoken at various conferences around the world, including as Keynote speaker at the 2019 American Society of Dowsers conference, and has been featured in the New Science of Water with the Tensor tools.

2:30PM – 3:30PM – DAN MANGUM

Electrosensitivity and Electrical Sickness. This class will cover the following: The history of electricity and how it affects life, including the nervous system, biochemistry, mitochondria, and associations with various diseases including cancer, diabetes, influenza, irritable heart, and chronic fatigue syndrome. New rates, worksheets, and protocols for using radionics to detect and address the ways that electricity affects these and other systems and diseases. The effects of electricity on trees, soil, honeybees, and animals along with new rates to analyze and balance these effects.

Dan Mangum is a radionic researcher who uses radionics to maintain a garden, greenhouse, fruit and nut trees, honeybees, a handful of horses and Shetland sheep, and his dogs. He also makes and sells radionic reagents and programs as well as an external antenna/rub plate of his own design and has authored 2 books on radionics. His background includes studying mysticism, magic and world religions for 30 years. He utilizes rife machines, orgone accumulators, homeopathy, and biodynamics. Dan is a licensed electrician who occasionally installs off grid solar power and lives off grid himself.

4:00PM – 5:00PM – MORRIS HARTMAN

Soil and Plant Balancing. Understanding soil composition and plant requirements are keys to bringing balance that changes the way crops are produced, from the garden to the field and pastures. Taking a difference approach to soil balancing is what this presentation is all about. Understanding pH and CECs and their purposes helps set the stage for better management practices. See how “base saturation” becomes the powerful tool in soil building. Learn to use your radionic instrument to analyze and repair soil and plant problems before they reduce yield and affect the bottom line of production.

Morris Hartman is a Quantum Polarity Therapist and Reflexologist. He had a fertilizer business for 20 years. Morris is a crop adviser and has been a soil radionics operator since 1985.

7:30PM – 8:30PM – MINGLING TIME!

The room will be open so attendees can get to know one another, check out the vendor tables, ask questions and hopefully, have some great conversations.

2022 RADIONICS SYMPOSIUM

Taught By The Masters

9AM - 10AM – DR. RICHARD OLREE

Understanding Covid. Dr. Olree will be discussing Covid from an energetic standpoint. Covid has hit many people hard, and some have not fully recovered. Dr. Olree will talk about the reconstitution of the human body from Covid's long haul effect.

Dr. Richard Olree is a Doctor of Chiropractic and holds a Bachelor of Science in human biology. He has had many of his articles published in Acres USA and has written several books including “Minerals, Hair and the Human Genome” and “Is Covid 19 a Telomere Virus.”

10:30AM - 11:30AM – BRIAN WORT

Radionic Acupressure Techniques. Most published radionic rate books include listings for the body's energy meridians and main acupressure/acupuncture points, but many operators may not know how to effectively utilize them for resolving a targeted complaint. Balancing all of them can obviously have beneficial effects, but it can be more potent and direct by applying stimulation to just a set of points designed for a particular issue, such as arthritis, sciatica, constipation, or anxiety. This session will provide a brief overview of the meridian system, a list of some of the more potent points to know and use for specific applications, and how to apply them radionically. This is especially useful for animals, where applying physical pressure to a point may not be safe or possible. Handouts of acupressure "recipes" and rate suggestions will be provided.

Brian Wort is an intuitive healer. He just completed five years of training in acupressure and TCM concepts, and is also certified in herbalism, Advanced Clendinning Technique, Usui Reiki Ryoho Master/Teacher (and other Reiki forms). He has studied human and animal nutrition for over 25 years and added radionics to his tool belt in 2017. Brian has been Sally Fallon Morell's Farm Manager and assistant cheesemaker for the past eight years at P.A. Bowen Farmstead in Southern Maryland, using radionics and biodynamics daily for the farm and its inhabitants.

1:00PM - 2:00PM – MORRIS HARTMAN

Broadcasting Positive-Negative Energy to Change Health and Wellbeing. Wouldn't it be wonderful if “hands on healing” were possible even if the person needing healing was hundreds or thousands of miles away? Well, here is how I do that very thing. If you have taken my classes on energy healing, you will quickly see how your radionic instrument now becomes your way of sending these same energy techniques to those who are ill and have need of your help. From mending broken bones to relieving anxiety attacks, this is sure to get your excitement going.

Morris Hartman is a Quantum Polarity Therapist and Reflexologist. He had a fertilizer business for 20 years. Morris is a crop adviser and has been a soil radionics operator since 1985.

2:30PM - 3:30PM – STEPHEN QUONG

Energetic Transformation of Burial Sites and Ritual Grounds. Protocols for the safe and effective identification and harmonization of the subtle energy fields of ancient burial sites, ritual grounds, battlefields, and similar places. Advanced methods for psychic self-defense, communication with the spirit world, and non-aggressive techniques to transform environmental energies to higher frequencies which support higher levels of consciousness. Identifying and successfully using radionics rates and reagents (standard and custom) and other complementary techniques to accomplish this type of work.

2022 RADIONICS SYMPOSIUM

Taught By The Masters

Stephen Quong has been studying, practicing and teaching various forms of spiritual healing, mantra practice, esoteric energy work, dowsing, radionics, past life regression therapy, psychic surgery, and remote viewing since 1972. He is a certified instructor of Qi-Mag Feng Shui and Tao Geomancy and is the only American holding the honorary title of Life Fellow of the Indian Council of Astrological Sciences. He attained Mastery Level certification in the Yuen Method of energetic healing in 2002. He was also a Founding Member and on the Executive Committee of the Planetary Gemologist Association. A complete bio is posted at: <https://jyotisha.com/bio.html>. Web sites: goldendragonfengshui.com and jyotisha.com

4:00PM - 5:00PM – **BRUCE SCHOENEFELD**

Spooky 2: The Versatility of using Spooky with Animals, Humans, Soil and Plants. The Spooky 2 is an effective and easy to use tool for many uses. In this presentation Bruce will explain the benefits of the varied uses of the Spooky 2.

Bruce Schoenefeld has technical and mechanical training and has been in the machinist and transmission business for 30+ years. He began studying Energetics in 2015. He became particularly interested in Spooky 2 technology and avidly studied it. He uses his Radionics and Spooky 2 technology and sees amazing results. Currently he is researching Iridology and how it can be used with Radionics and Spooky 2.

7:30PM - 8:30PM – **LUTIE LARSEN**

My Journey in Radionics. Did you know Albert Abrams graduated from the Medical College of the Pacific in 1881? (He was 18 years old). One of the concepts he discovered was the importance of alignment (when evaluating the subtle fields). Do you use alignment in your practice of radionics? Have you ever wondered about how we can “work at a distance”? Have you tried to explain that? My journey has given me explanations, insights and understanding of the World of Subtle Energy

Lutie Larsen entered the field of radionic research in early 1978 when she was busy raising a family and looking for natural ways to take care of family needs. They lived in the county and had a cow, chickens, goats, and a big family garden. Radionics became an adventure and took Lutie to England (and Europe) 12 times during the 1990s where she certified in agricultural radionics (1996) and participated in several Delawarr Camera trips. Lutie worked in the R&D Labs of Estee' Lauder for 9 years as a subtle energy consultant. In addition to raising a big family Lutie and her daughter Katherine served on the USPA board, ran a community youth program and published a bi-monthly newsletter for 20 years.

DAY 3

SATURDAY, OCTOBER 29, 2022 - 9AM TO 5:15PM

9:00AM – 10:00AM – **DR. ALAN BACK N.D.**

What You Think You Know About Water, But Do You? Dr. Alan will be presenting his information on practical applications of Water Technology and its benefits. Information includes: revealing the secrets of water, how to discern problems in your water supply, and how to understand and address any problems in your water supply. Results based analysis of previous clientele. Additionally, Dr. Alan will conclude with the Economic and Ecologic impact of the Back Water System CP5, as well as an overview on the systems' installation process.

Dr. Alan Back holds a Doctorate in Traditional Naturopathy. Years in electronics from a very early age to the Army electronics prepared him to learn Radionics from the Original Crafters. Alan always searched for a better way to remove stress from all living things which led him to design and develop the Bio Photon Analyzer and family of products. All

Back Products focus on Balance. When balanced is achieved with proper frequency, a natural state of health returns to bodies, animals, crops and even water. Research and development of products, working closely with Harvard's own Dr. Jeff Southerland, led to his appointment to the Board of Frequency Medicine. Today Alan continues his research to refine the Back Water System family of products which applications have proven performance in pools, spas, homes, farm and industry. www.a2src.com

10:30AM - 11:30AM— GEORGE KUEPPER

Psychotronics & Biodynamics: A Deeper Look. George will delve further into the major topics of his 2021 book Psychotronics and a Biodynamic Garden. In particular, he will concentrate on the power of dowsing within radionics and its value for addressing a wide range of matters. This discussion will include the integration of dowsing to support manifestation. George will also speak about the range of broadcasting devices he describes in his book, followed with further updates on his work with nature intelligences.

George Kuepper was raised on a small dairy farm in southeastern Wisconsin. He earned a Masters in Agronomy from the University of Wisconsin in the mid-1970s and has spent a career working on, and advocating for, organic and sustainable agriculture. George has practiced radionics since 1986 and is the author of 3 books on the subject. He has been practicing Biodynamics for 7+ years. George can be contacted directly through his Web site: www.midsouthradionics.com

The Heart: A Case Study and Work in Progress. This is a radionic approach to the heart covering: AFIB, the left ventricle, heart/blood issues, nutrients, and a way to wellness by taking back control of your health. This radionic protocol was developed during the pandemic in 2020 and is a work in progress with new results to be determined in the near future.

Susan Doherty is an artist, climate activist, technology innovator and radionics practitioner. Her interest in radionics was sparked by ACRES USA, Jensens, Dietrick Luedtke, Peter Kelly, Sarah Hieronymus, and Peter Moscow (USPA) and David Doherty. She trained with Ed Kelly prior to attending the Symposium in South Dakota in 2015.

2:30PM - 3:30PM— JOHN ARLOTTI

Learning to See Others Clearly and Understanding How Words Form our Opinions, Views and Outcomes. Who we are? Does what we hear help us develop the correct intent? WHAT IF we hear words and determine the wrong intent or actions for them? WHAT IF we see a person and based on our backgrounds or beliefs, we see something completely wrong? What would our outcome be if we could see clearly and know exactly what to do? Learn how to treat from a pure heart and mind.

John Arlotti is on a quest for knowledge and understanding. His passion for helping others and healing has exposed him to many fascinating people. These experiences give him the ultimate reasons to pursue answers and open doors of information.

4PM - 5PM— JIM PORTERFIELD

Everything is Changing...Testing...1,2,3,4. I will walk attendees thru a few key things to know about how to dowse and then branch off into some of the tests that I have run over the last two years on practical stuff: Using Mary Walker's refrigerator magnets. Using radionics to test how prayer affects food. Making daisy chain variable power broadcasting strips. Making Sun and Moonlight cards for broadcasting to plants, animals, and people. Using algebra and
