October 23-25, 2025 • Rapid City, SD

## Pre-Symposium Classes

October 21-22, 2025

### 2 Day Class - Beginning Radionics

Instructor: Marty Lucas

Tuesday and Wednesday, October 21-22, 2025 – 8:30AM to 5:00PM

Learn to analyze and balance, as well as the basic theory of the radionic instrument. This two-day course is designed for the brand-new beginner and anyone seeking a refresher in the basics.

#### Topics Include:

- History and Theory of Radionics
- Collecting Samples and Witnesses
- Basic A+B Analyzing and Testing
- Use of Reagents
- Cold Scanning: The essential skill
- Introduction to Radionic Worksheets

Participants will use their radionics instrument to assess the energetic strength of a witness; measure the impact of rates and reagents; and broadcast to energetically balance and remove blockages. Each student will receive 2 reagents, retail value at least \$400.

Students will need to bring:

- *Hieronymus-style instrument*
- *Water and/or soils samples if desired*
- *Rental instruments are available \$50 (reservations required)*

### SEPARATE REGISTRATION REQUIRED FOR BEGINNING RADIONICS!

INDIVIDUAL ENROLLMENT \$400.00

## Pre-Symposium 1 Day Class Options Tuesday, October 21, 2025

### Option 1

#### 1 Day Class - Dowsing

Instructor: Sarah Emond

Tuesday, October 21, 2025 – 9:00AM to 5:00PM

Learn to dowse in this hands-on class. Participants will learn the basics of dowsing and will be practicing using fun techniques throughout the day.

#### Topics Include:

- Programming your pendulum or dowsing tool
- Using your pendulum or dowsing tool
- Getting answers: Yes/No; Percentages; Etc.
- Using a Dowsing Chart
- Clearing a Person/Place/Thing
- Locating Items

Students will need to bring: *A Pendulum*

\*Pendulums and Bobbers will be available for purchase.

**SEPARATE REGISTRATION REQUIRED FOR DOWSING CLASS!**

INDIVIDUAL ENROLLMENT \$200.00

## Option 2

### 1 Day Class – Advanced Electroculture for Farms and Gardens

Instructor: Robert Quick

Tuesday, October 21, 2025 – 9:00AM to 5:00PM

Electroculture devices use shape, proportions, and placement, to utilize Earth's atmospheric and magnetic energies to grow food. I have added other subtle energy techniques, such as Bio-Geometry and Rudolph Steiner's aether energies, to create advanced electroculture designs and practices.

You will learn how to build and use my original designs for electroculture cones, towers, and antennae. Demonstrations and hands on work will vary according to the number of students that are in the class. Dowsing and radionics skills can be used to enhance electroculture technologies, but such skills are not needed.

No previous electroculture, dowsing, or radionic skills are needed to take this class or to use what you will learn in this class. If you are new to electroculture, I recommend reading Yannick Van Doorne's book *Electroculture Practical Guide* ISBN 978-2-494659-03-02.

#### SEPARATE REGISTRATION REQUIRED FOR ADVANCED ELECTROCULTURE FOR FARMS AND GARDENS CLASS!

INDIVIDUAL ENROLLMENT \$200.00

FAMILY MEMBERS, SIGNIFICANT OTHER OR PREVIOUS STUDENTS \$150.00

TO PRE-REGISTER: EMAIL A REQUEST TO ATTEND THIS CLASS TO  
[Mr.Robert.Quick@gmail.com](mailto:Mr.Robert.Quick@gmail.com).

REGISTRATION AT THE CLASSROOM WILL BE FROM 8:30 AM TO 9:00 AM.

CASH AND CHECK PAYMENTS FOR THIS CLASS WILL BE ACCEPTED AT THIS TIME.

## Pre-Symposium 1 Day Class Options Wednesday, October 22, 2025

### Option 3

#### 1 Day Class – Radiesthesia 2 – The Hebrew Pendulum

Instructor: Dan Mangum

Wednesday, October 22, 2025 – 8:30AM to 5:00PM

This class is continuation of the material covered in Radiesthesia 1 - The Subtle Energy Spectrum.

Primary focus will be on the Cylindrical Pendulum, and a specialized variant called the Hebrew Pendulum. We will also learn about the Biometer, room clearing diagrams and tools, and some other concepts from Louis Turenne, Enel, and Jean de La Foye.

The only new required tool is the Hebrew Pendulum. Attendees should bring their tools from the previous class.

Prerequisites for this class are Radiesthesia 1 - The Subtle Energy Spectrum, or Biogeometry Foundation training. I will be conducting an online class later this year that covers prerequisite material for those who would like to attend Radiesthesia 2 in October.

#### SEPARATE REGISTRATION REQUIRED FOR RADIESTHESIA 2 CLASS!

INDIVIDUAL ENROLLMENT \$100.00

TO REGISTER OR FOR MORE INFORMATION ABOUT THE CLASS OR THE HEBREW PENDULUM, CONTACT DAN MANGUM, [HARMONICENERGY@PROTONMAIL.COM](mailto:HARMONICENERGY@PROTONMAIL.COM) OR 509-442-3412 (CALLS ONLY. NO TEXTS).

## Option 4

### 1 Day Class - Using Radionics to Regenerate Fields and Gardens and using the Golden Ratio and Pyramids to Enhance Seeds to Grow Healthy, Nutrient Dense Crops.

Instructor: Jim Porterfield

Wednesday, October 22, 2025 – 9:00AM to 4:00PM

**Description:** This will be a hands-on class using both radionics and dowsing and the power and subtle energy of pyramids and the golden ratio to enhance seed germination and early growth. Participants will practice on their own soil and seeds during class time as they learn how to do the following:

- Use the Golden ratio to modify seed packets and seed starting trays.
- Construct a small 10 by 10 inch pyramid to hold the seed packets.
- Analyze soil and seeds for contaminants. *You can't fix what you don't measure.*
- Detox half of their soil and seeds and leave the other half as controls.
- Enhance the detoxed portion of the soil and seeds with nutrients and energy.
- Test compatibility of soil and seeds (does the soil like that seed☺ or not☹ ).
- Test compatibility of soil and seeds with various fertilizers
- Learn about programs, reagents, music and energies that encourage plants to grow.

**Materials Provided:** I will provide handouts that include a list of references and key books, a list of minerals needed to have on hand for the garden, a pack of programmed cards to detox, enhance, and help regenerate the soil and grow the crops and a pack of placemats showing research on minerals in vegetables that I have tested that should generate interest at the dinner table. Each participant will receive precut parts to make a 6-inch tall cardboard pyramid, two packs of radish seeds, a pack of empty test tubes, all of which is theirs to take home.

**Participant Equipment Needs:** Participants will need to bring their own radionics instrument and a pendulum or their favorite method of dowsing. They will also need to bring a quart bag of soil from their farm or garden and some seed that they intend to plant in 2026.

**Results:** Participants will be able to go home and immediately begin restoring their soil and enhancing seed energy and nutrient density of their crops using radionics and dowsing practices learned during the class.

**SEPARATE REGISTRATION REQUIRED FOR REGENERATING FIELDS AND GARDENS CLASS!**

INDIVIDUAL ENROLLMENT \$220.00

TO REGISTER, SEND A TEXT MESSAGE TO JIM PORTERFIELD AT 708-714-0746.

REGISTRATION MUST BE RECEIVED BY OCTOBER 10, 2025.

October 23-25, 2025

---

### Thursday, October 23, 2025 – 9:00AM to 5:30PM

**7:45AM – 8:45AM**

**\*\*Check-In.** Check in, complete payment, and receive Symposium materials during this time frame. The table will close at 8:45am. If you have not checked in during this period, you will not be allowed into the room until the next break. We reserve the right to refuse entrance to anyone who shows up after the Check-In time frame has ended. If you know you will be late, please contact the Symposium Administrator prior to the conference to make alternate arrangements.

*\*\*You must have completed the online registration process to attend.*

*We do NOT allow walk-ins.*

---

**9:00AM – 9:15AM**

**Sarah Emond**

**Introduction.** Symposium Introduction with review of policies, housekeeping, etc.

---

**9:15AM – 10:00AM**

**Dr. Ron Barone**

**New Techniques to Help Your Radionics Analysis.** Introduction to AI: Knowing what rates or supplements to check for can be difficult if you don't have the knowledge. Using AI as a radionics assistant can help overcome this lack of knowledge and lead you in directions you may not have considered. Oxidative Stress: A simple explanation of oxidative stress and how it impacts health. Bach Flower Remedies: An easy way to look for an underlying emotional cause and great as reagents.

**Dr. Ronald Barone** is a consultant on personal well-being. From Black Hawk, SD, Ron brings over 50 years of experience in the health care field. He is a Chiropractic Doctor certified in Orthopedics, with training in advanced Radiology, Nutrition, and Kinesiology and with a focus on environment, organic foods, nutrition, herbs, homeopathics, exercise and correct thinking. He has been doing radionics and energy medicine as his ministry since 1995. Working on people with health issues and longevity is his primary ministry. He is a skilled dowser in the natural and spiritual realm and a personal friend of Master Dowser and Shaman Raymon Grace. He is also skilled in helping the dying go through transition to the spirit world. He has considerable experience with discarnates and a wide realm of non-physical issues. Ron has worked on many issues in the natural and spiritual realm. Ron teaches people to take control of their own well-being, physically and spiritually.

10:30AM – 11:30AM

**Ed Kelly**

**Understanding the Basics: Radiesthesia, Rife and Radionics.** Many beginners are confused by the three main forms of frequency-based manifestation and healing, a problem that is compounded by a lack of clarity between the modalities by manufacturers and in the literature. This class will explain the differences between the three forms, including the strengths and weaknesses of each.

**Ed Kelly** is the owner of Kelly Research Technologies, the world's oldest producer of two-dial "Hieronymus" type live-signal radionic instruments.

---

1:00PM – 2:00PM

**Brian Wort**

**Tips and Techniques on Using Radionics for Animal Health and Well-being.** Learn how to apply radionics effectively to support the health, vitality, and productivity of livestock and other animals on the farm. This focused session offers hands-on strategies, including sample protocols, health scanning techniques, treatment tips, and herd-wide applications for cattle, pigs, goats, poultry, and more. Designed for the farm setting, we'll explore techniques specifically tailored to livestock, with additional insights for working dogs and companion animals.

**Brian Wort**, Farm Manager and Cheesemaker, raised in the Midwest where his grandparents on both sides farmed for their families, Brian has a strong love for traditional methods of agriculture and cooking. He learned Regenerative Farming techniques on a pasture-based farm in Northern California, raising chickens, hand-milking cows, and learning about Management-Intensive Grazing (MIG). Brian started using Biodynamic methods regularly on the farm 11 years ago when he joined P.A. Bowen Farmstead. He studied intensively with Hugh Lovel for several years and consults regularly while daily improving the farm organism known as P.A. Bowen Farmstead through management and application of radionics and biodynamic agriculture principles. He is happiest when he is working with his hands and/or with livestock. Brian also practices Reiki, Acupressure, Alchemical Herbalism, and Qi Gong.

2:30PM – 3:30PM

**Susan Doherty**

**Integration and Intuition: Using Complementary Therapies with Radionics.** Integration and Intuition: Consider expanding the use of Radionics in a new way. There are many complementary therapies that can be used alongside Radionics while working with a client, particularly when the condition is chronic and it seems like radionics alone is not taking care of the problem or it tends to return. There are new devices, therapies and concepts that can be used while working with a person with chronic conditions. I will present snippets of case studies with the radionic rates used and show how additional therapies decreased the timing and increased the effectiveness. I will present advantages of the following therapies and how to use them with radionics: Devices: Red

**Mingling Time!** The room will be open so attendees can get to know one another, check out the vendor tables, ask questions and hopefully, have some great conversations.

## Friday, October 24, 2025 – 9:00AM to 8:30PM

**9:00AM – 10:00AM**

**Sarah Emond**

**Tips and Tricks.** This presentation will share different tips and tricks Sarah uses in her everyday Radionics practice to make things easier and get better results.

**Sarah Emond** is an intuitive healer, spiritual mentor, and radionics operator. She has the innate ability to see energy - seeing links, patterns, causes, and feeling emotions. She communicates with energy, then she repairs, rearranges, and guides the energy as needed to either heal the energy body or provide the energy body what it needs to heal itself. Sarah uses these abilities both in her healing business and her radionic practice. Sarah is also a Reiki Master, certified reflexologist, radionics practitioner, and master dowser. Her passion is to help others grow and become the best version of Who They Are along the way.

10:30AM – 11:30AM

**Cory Stover**

**Examining the Mind-Matter Interface as Applied to Radionics & Beyond.** We will be examining the interface between mind and matter. Radionics works at this intersection through the instrument of consciousness and focalized intent. Consciousness is the substrate from which both mind and matter arise. It is the scaffolding of our reality and the formative force bridging mind and matter. We will examine the mechanics of these processes and consider ways to enhance this interface. The very nature of radionics places it at an acute intersection with consciousness. My goal will be to provide practical applications in keeping with principles.

**Cory Stover** has been involved radionics for nearly twenty years. He has developed, produced and distributed radionic equipment worldwide. Cory has worked in consulting and product development for several companies, collaborated in various research projects, and has a fiancé' named Asal.

---

1:00PM – 2:00PM

**Norm Odell**

**Finding Uses for Radionics in Everyday Life.** Norm will be shared how he has used radionics to help find the truth. By having that information it's much easier to make decisions that work for him instead of against him. It has simplified his operation in several ways.

**Norm Odell** has been working for BNSF railroad for 42 years. He has farmed all his life and has been certified organic for 25 years. He still hasn't graduated from the school of hard knocks but hasn't given up.

2:30PM – 3:30PM

**Roxanne Matacia**

**Finding Rogue Frequencies.** Our bodies strive to keep us in homeostasis. Stress and out-of-balance emotions can cause nefarious lifelong health problems. They can hide away and inhibit our attempts at healing. Fortunately, with the right equipment, the frequencies of these stressors can be identified. With a 10 second Inner Voice exam thousands of frequencies are analyzed, narrowing in on 2,000 that are specific to you for that moment in time. These vocal biometrics are used to create counterbalancing soundtracks that are specifically for you. These are essentially the keys to unlocking and negating what had been interfering with homeostasis. This technology has helped me with my melanoma.

**Roxanne Matacia** began as a registered X-Ray tech and moved on into Light Therapy and Radionics. Now Roxanne works on clients and animals with radionics, PETs and Advanced Biophoton matrix machines. She is passionate and loves to help people help themselves. She is the creator and host of Roxy's Quantum Empowerment Calls.

**Dan Mangum**

**Caring for Fruit Trees with Radionics.** The health of fruit trees is dependent on the soil and the environment. Insects, fungus, and diseases are simply symptoms of imbalances. This presentation will show you how to restore balance and allow the trees to thrive. Learn how I use soil amendments, foliar sprays, Brix readings, Biodynamic preparations, Agni Hotra ash, and radionics to do this. Blights, fungus, pests, poor soil, and uncooperative weather can be handled. Pollinators can be worked with. And these practices can be used with gardens and crops too. There will even be worksheets and a cool story.

**Dan Mangum** is a radionic researcher who uses radionics to maintain a garden, greenhouse, fruit and nut trees, honeybees, a handful of horses and Shetland sheep, and his dogs. He makes and sells radionic reagents and programs, an external antenna/rub plate of his own design, teaches radionic classes, and has authored 2 books on radionics. His background includes studying magick, mysticism, and world religions for 30 years. He utilizes rife machines, orgone accumulators, homeopathy, and biodynamics. Dan is a licensed electrician who occasionally installs off grid solar power and lives off grid himself.

**Q&A with Speakers.** All 15 speakers will be present to answer questions. This will be a moderated event to keep it flowing smoothly and hopefully get everyone's questions answered.

## Saturday, October 24, 2025 – 9:00AM to 4:45PM

9:00AM – 10:00AM

**George Kuepper**

**Psychotronic Towers, Field Broadcasters, and Medicine Wheels.** Innovative farmers, gardeners, and researchers are using a variety of in situ subtle energy devices to balance energies and enhance plant growth. Some of these reflect the technologies of ancient cultures. Others show the influences of radionics and more modern innovations. George will provide an overview of several such methods, and focus specifically on how he manages field broadcasters, which are also known as cosmic pipes.

**George Kuepper** was raised on a small farm in Wisconsin. George attended the University of Wisconsin and has spent his career working in organic and sustainable farming and gardening. He began studying and applying psychotronics to that work in 1986 and continues to do so in semi-retirement. George has authored three books on psychotronics and is a former Board member of the US Psychotronics Association.

John Myser

**Unlocking the Power of TimeWaver Pro & AI: Balancing Humans Health.** Discover how TimeWaver Pro, combined with the insights of modern AI tools such as ChatGPT, Claude, Grok, Perplexity, and DeepSeek, can address real-world challenges by optimizing energetic balance in human health. This advanced frequency-based system taps into the informational field to identify imbalances and restore harmony, while AI helps illuminate patterns, clarify meaning, and track measurable outcomes. Together, these tools offer a unique approach to resilience, vitality, and lasting well-being.

**John Myser** began his journey as an Army Medic after high school, stationed in Germany during the Cold War. Using the GI Bill, he earned his degree and went on to build a career in Silicon Valley as a high-tech executive leading sales and marketing. Eventually, John left the corporate path to pursue inner work, becoming a devoted student of Nonviolent Communication under Dr. Marshall Rosenberg, whom he hosted many times in the Midwest. Later, John found himself navigating the complexities of the legal system and developed a reputation for cutting through legal processes with clarity and precision. His lifelong passion for health led him into the world of frequencies—first with Healy, then TimeWaver Pro, McMakin Frequency-Specific Microcurrent, Radionics, and Polarity & Reflexology with Morris Hartman. A committed Bitcoiner and explorer of emerging AI tools (including ChatGPT, Claude.ai, Grok, Perplexity, and DeepSeek), John sees technology, law, health, and spirit as interconnected frontiers. His guiding values are: Health, Family, Community, Tribe, Wealth, Spirituality, and Fun. John is a passionate learner who loves to share what he discovers, bringing curiosity, clarity, and heart to every room he steps into.

Pete Radatti

**Increasing Power of Radionics Machines.** During the last year I have been studying ways of increasing power of radionics devices. One example, on a base-10 machine potentizing time reduced from 3 minutes to 5 seconds.

**Pete Radatti** is known for his books on radionics available from amazon.com, including his latest book, "Build a Low-Cost Base-10 Radionics Machine" part of the "Mastering Radionics" series of books. He also teaches a class once a year in Peetz, CO and runs a grassroots radionics support group in the Philadelphia area called Conshohocken Radionics.

magnetic energy flow and provides the trace minerals that are needed to form amino acids, enzymes, antibiotics, and vitamins.

**Robert Quick** has a degree in horticulture, but most of his life has been devoted to research in the fields of alternative medicine and renewable energy. Nikola Tesla, Rudolph Steiner, Viktor Schauberger and Phil Callahan have provided him with insight on how to work with nature and replicate its procedures. He has healed himself, built and used a Browns gas fuel system for his truck, designed an electrical generator that has no moving parts and designed a solar powered steam turbine. Now that he is “retired”, his new company, Energized Water USA, makes magnetically powered reagents. The reagents are designed to remove water pollutants and improve the health of the environment. These reagents are the result of 20 years of research and development.

**Carolyn Israel (Not included for Zoom Attendees)**

**Intro to Homeopathy.** Homeopathy is often confused as a term for home remedies. Unlike using an onion poultice for a chest cold, homeopathy uses symptoms like a road map pointing towards a remedy for the cure. Using high dilutions of a substance, no molecules of the original substance remains, but only the energy to produce the cure. Homeopathic terms and the tools to determine the right remedies will be presented. An emergency tool kit will be able to be used radionically.

**Carolyn Israel** is a medical laboratory scientist whose investigative training brought her to homeopathy to help heal family and friends without the side effects of current medical practices. Each success story has spurred further investigation of this time-honored method of treatment.
