Introduction. Symposium Introduction with review of policies, housekeeping, etc.

Gene Editing CRISPR Technology. A presentation of information by a radionics master practitioner about Gene editing CRISPR technology, Gene therapy, benefits, dangers and potential radionics benefit by programing according to the best original genetics given mankind by the creator.

Dr. Ronald Barone (Body, Mind & Spirit) is a consultant on personal well-being. From Black Hawk, SD, Ron brings over 50 years of experience in the health care field. He is a Chiropractic Doctor certified in Orthopedics, with training in advanced Radiology, Nutrition, and Kinesiology and with a focus on environment, organic foods, nutrition, herbs, homeopathics, exercise and correct thinking. He has been doing radionics and energy medicine as his ministry since 1995. Working on people with health issues and longevity is his primary ministry. He is a skilled dowser in the natural and spiritual realm and a personal friend of Master Dowser and Shaman Raymon Grace. He is also skilled in helping the dying go through transition to the spirit world. He has considerable experience with discarnates and a wide realm of non-physical issues. Ron has worked on many issues in the natural and spiritual realm. Ron teaches people to take control of their own well-being, physically and spiritually.

10:30AM -11:30AM – **BRIAN WORT**

Biodynamic Ashing and Radionics. On June 14, 1924, Rudolph Steiner gave the sixth lecture of his agricultural series, entitled "The essence of weeds, pests and so-called plant diseases in the forum of nature," in which he describes non-chemical methods of preparation used to clear an area of unwanted organisms that are resistant to other control measures. This presentation will explain how to make a traditional biodynamic ash (aka pepper) for keeping pest/predator animals away from the property or garden, and then use that energetic material as the foundation of a radionically enhanced program or reagent. Examples of ashing will include tips and suggestions for mammals, birds, insects, and plants.

Brian Wort is an intuitive healer and has been using biodynamic methods on the farm for 9 years. Brian is certified in acupressure, herbalism, Advanced Clendinning Technique, Usui Reiki Ryoho Master/Teacher (and other Reiki forms). He has studied human and animal nutrition for over 25 years and added radionics to his tool belt in 2017. Brian has been Sally Fallon Morell's Farm Manager and assistant cheesemaker for the past nine years at P.A. Bowen Farmstead in Southern Maryland, using radionics and biodynamics daily for the farm and its inhabitants.

2023 RADIONICS SYMPOSIUM

Taught By The Masters

1PM - 2PM – **KATELYN COON**

Finding Your Way in Radionics. Developed skill and naturally occurring skill are two different things. Finding a blend and a balance of the two is my secret sauce for radionic success. The easiest and hardest part of radionics is that there is no "one true way". One could do many things in many different ways and still achieve great results. Finding your own way can be difficult, and it's my experience that enjoying the work is a huge part of success. Therefore, what you are good at, and what you enjoy become your two biggest assets in developing your own way in Radionics.

Katelyn Coon is the self-described "certification Queen". If there's a class for it, she's probably taken it, or it's on the upcoming docket. A total skeptic, she loves constantly being amazed and astounded by all things energy work and has been working and learning in the energy field for 13 years.

2:30PM – 3:30PM – **BRIAN BESCO**

Hands-on Tensor Ring Experience. Interactive class to observe the effects of Tensor fields on water, plants, and other bio-electric beings. Attendees will receive a free Tensor Ring and learn to broadcast that field to achieve similar results to the three in-person experiments. First, we will find and compare the vitality of a plant, and its soil, before and after an open broadcast with Tensor Rings. We will also compare both the vitality and the taste of water, in a comparison experiment. Thirdly, participants will observe the quantitative and qualitative data, as volunteers are fully immersed in a Tensor Field.

Brian Besco has created leading-edge subtle energy tools, as a family business, for 13 years. Tensor Rings are familiar tools used in dowsing, energy healing modalities, radionics, and simply as standalone tools to harmonize non-beneficial energy fields. Brian has spoken at various conferences around the world, including keynote speaker at the 2019 American Society of Dowsers conference. Tensor tools have been proven to restructure water by the New Science of Water, and several independent tests show Tensor fields mitigating the harmful effects of cell phone radiations on the physical, mental, emotional, and energetic fields of the human. Brian is one of the world leaders in the consciousness movement that is occurring on the planet.

4:00PM – 5:00PM – **JOHN MYSER**

What is Frequency Specific Micro-Current (FSM) and How can FSM Support My Health and Wellbeing. FSM has its roots in Radionics. Henry Van Gelder, an intuitive healer, began using 2 frequencies at a time: one frequency for the issue, and the second frequency for the tissue; applying the two frequencies with Microcurrent. Dr. Carolyn McMakin came across his work, 26 years ago, and has expanded it to over 3,500 practitioners in countries all over the world. At the conclusion of this 1-hour presentation, you will have experienced FSM and have a basic understanding if this a tool you will add to your toolbox of healing modalities. And yes, you can do FSM thru your radionics device.

John Myser started out as an Army Medic after high school, stationed in Germany during the cold war. He got the GI bill to pay for his college. He then pursued a career in High Tech in Silicon Valley, becoming an executive leading sales and marketing. He left that career to pursue inner work, with Non-Violent Communication as shared by Dr. Marshall Rosenberg, and sponsored him many times in the Midwest to visit. He later found himself having to grasp how the legal system in the world operates and can now stop a legal process with just a few sentences. He has always been interested in health, so when he found frequencies, first Healy, then Timewaver Pro and Timewaver Frequency McMakin, then Radionics and Morris Hartman, he was hooked. His values are simple, Health number one, Family and Tribe number two, wealth number three, and wrapped all up in Spirituality. If you don't have health, nothing else matters, just ask Steven Jobs, if you could. John is a passionate learner and loves to share what he learns.

Enhancing Earth's Magnetic Flow. How to build and use a Magneto Soil Antenna that stimulates plant and soil vitality.

Robert Quick has a degree in horticulture, but most of his life has been devoted to research in the fields of alternative medicine and renewable energy. Nikola Tesla, Rudolph Steiner, Viktor Schauberger and Phil Callahan have provided him with insight on how to work with nature and replicate its procedures. He has healed himself, built and used a Browns gas fuel system for his truck, designed an electrical generator that has no moving parts and designed a solar powered steam turbine. Now that he is “retired”, his new company, Energized Water USA, makes magnetically powered reagents. The reagents are designed to remove water pollutants and improve the health of the environment. These reagents are the result of 20 years of research and development.

Understanding both sides, having worked and educated in both Natural and Allopathic schools of thought. This viewpoint has shaped her research, design, and product development projects with partner Dr. Alan Back. Therefore Dr. Back shows improvement in the studies, evidence-based, scientific processes before any product can be brought to market. Education and Product Research has been the focus over the past 10 years. Numerous cutting-edge products have been introduced; future research projects will continue with Prime Energetics.

1:00PM - 2:00PM – **PETE RADATTI**

DAY 3

SATURDAY, NOVEMBER 4, 2023 - 9AM TO 5:15PM

9:00AM – 10:00AM – HENRY OPPERMANN

Color and Frequencies. Would you like a simple way to heal? Did you know a flashlight can heal you? Tired of going to the doctor to get that special steroid ointment? Want to know what color will replace that in case of inflammation? Color is the communication method of the human energy system. The human generates about one candle power of light for cellular communication between all living systems. Build a better understanding of how color relates to the multiple levels of the human energy field, and where it fits in the multiple layers of healing. I will also share a couple of tools and how I use them to help others.

Henry Oppermann has over 40 years of engineering expertise and retired last year. At the height of his business, he worked with 79 engineers primarily focusing in steel, utility, auto, paper, mining and petrochemical plants with re-powering old equipment. He is considered a forensic expert and subject matter expert in troubleshooting legacy power systems and failures. While operating his engineering company, he was triggered to jump in with both feet into his never-ending subtle energy work journey. His journey started as a father with a dying daughter. Modern medicine was not kind to his family. He was not the least bit interested in watching his daughter die on his watch without a fight. Troubleshooting her issue was his rapid entry in well over 2000 hours of classroom study in various life affirming modalities. From NLP, radiesthesia, touch based healing techniques, "Biogeometry™", multiple cultural shamanic studies, electro-medicine, international radionics, Akashic studies, crystals, oils, herbs, mediumship, nutrition, detox, and finally color are all explorations he has done, just to name a few.

10:30AM - 11:30AM – DAN MANGUM

A Deep Dive into Soil: Fungi, Bacteria, and More. This class will discuss the components of healthy soil (clay, silt, sand, humus, etc.), as well as the function and importance mycorrhizal fungi, soil bacteria, nematodes, and more. Then we will go into how these all interact with each other and minerals in building healthy soil and creating plant nutrition. We'll talk about products and practices to build these soil components which will, in turn, improve plant health. Physical and energetic decontamination of the soil will be part of this. A soil

worksheet I have developed with many new rates that can be used for gardens, orchards, or fields will be included, as well as analysis and broadcast strategies, and reagents (including biodynamic preps). The importance of the mycorrhizal fungi will be emphasized. This presentation is based on research I've done and how I've used that information to build the soil in my orchard and improve the health of the trees.

Dan Mangum is a radionic researcher who uses radionics to maintain a garden, greenhouse, fruit and nut trees, honeybees, a handful of horses and Shetland sheep, and his dogs. He makes and sells radionic reagents and programs, an external antenna/rub plate of his own design, teaches radionic classes, and has authored 2 books on radionics. His background includes studying magick, mysticism, and world religions for 30 years. He utilizes rife machines, orgone accumulators, homeopathy, and biodynamics. Dan is a licensed electrician who occasionally installs off grid solar power and lives off grid himself.

1PM – 2PM– DR. SKY MONARCH

Yin and Yang of Radionics, A Yin Approach. Looking at the Yang aspect, what is physically wrong with the client, and the Yin aspect, the more passive reasons for dis-ease, and how they correspond to one another. Most importantly, we will look at how to incorporate this knowledge into Radionics prayer programs for greater successes.

Dr. Sky Monarch first and foremost considers herself a “Professional Student”; the personal derogatory familial comment that she comprehensively embraces nowadays! Dr. Sky is a three-time recipient of “America’s Top Chiropractors” and a member of The Cambridge Who’s Who Registry of Executives and Professionals. She currently continues her chiropractic career thirty + years.

2:30PM - 3:30PM– DR. ALAN BACK N.D.

Radionic Instruments and Devices of the Future. Dr. Alan Back will dive deep into Operators experience and understanding of what they never knew. This will include: Instruments of the Past, Radionic Limits, Interference of Subtle Energy and its effects on the Human Body, Frequency and Physical effects, Applied Understanding, and Sleep, Health, and You!

Dr. Alan Back holds a Doctrine in Traditional Natural Health. For over 35 years he has designed and developed many cutting-edge Electronic Devices to improve health and optimize consumables such as water and food. His main goal is to educate and create devices that make life easier for the Natural Health Practitioners and their clients. As one of the last true Crafters in Radionics Alan keeps striving to improve Operator Education in Radionic and Subtle Energy. He has become a pioneer in the advancement of creating and designing Subtle Energy Products and Devices of the future.
