Pre-Symposium Classes

October 20-21, 2026

2 Day Class - Beginning Radionics

Instructor: Dan Mangum

Tuesday and Wednesday, October 20-21, 2026 – 9:00AM to 4:30PM

This class will introduce the fundamental skills and knowledge that will enable students to put radionics to work in their lives.

This Class Will Cover:

- Basic radionic theory and history.
- The triad of fundamental radionic skills: analyzing, broadcasting, and potentizing
- Radionic witnesses.
- Definition, selection, and use of reagents.
- Using worksheets.
- Cold scanning.

The class will be hands-on and emphasize self-confidence and skill building. Students will learn Radionics by doing Radionics. Students will make several potentized energy tools to take home and use their Radionic work.

As part of the class, students will receive a basic radionic guide booklet for reference.

Students Will Need to Bring:

- *Hieronymus style/two dial instrument and a potentizer*
- *A photo witness of themselves*
- *A small soil sample (farm, garden, or house plant) in a glass test tube or small plastic bag.*

There will be a limited number of rental units available. Rental fee is \$50. Please register early if you need a rental. If you want to purchase an instrument for the class, please contact Dan by the beginning of September to ensure enough time to obtain it.

1 Day Class – Searching for the Energetic Keys to Cancer

Instructor: Marty Lucas

Wednesday, October 21, 2026 – 9:00AM to 4:30PM

This is an energetic exploration of causes and useful strategies to assist in healing and recovery. We will be examining causes, not symptoms. There is NO MEDICAL INFORMATION OFFERED. There will be no diagnosis or treatment offered. This is about finding, evaluating, and balancing energy.

While physical causes are often contributory, this class focuses on energy patterns; from the point of origin (in time and space) to manifestation. The student will learn about information channels, layers of energy, and energy blockages.

Everything we understand about structured water, photons, somatids and more applies directly to this work.

The primary goal of the class is to remove the fear and stigma associated with the word and replace it with a gameplan and approach to deal with it just like any other health issue.

The student is encouraged to bring appropriate witnesses and a Hieronymus-style radionic device.

SEPARATE REGISTRATION REQUIRED FOR SEARCHING FOR THE ENERGETIC KEYS TO CANCER!

Introduction. Symposium Introduction with review of policies, housekeeping, etc.

9:15AM – 10:00AM

Sarah Emond

Using Location, Condition, and Single Dial Rates. This class covers the practical application of location rates, condition rates, single-dial rates, and their traditional uses. We will also be exploring alternate applications for modern practitioners. Students will learn how to identify, test, and apply rates effectively, along with methods for safely combining radionics with Frequency Specific Microcurrent (FSM) frequencies to enhance outcomes.

Sarah Emond is an intuitive healer, spiritual mentor, and radionics operator. She has the innate ability to see energy - seeing links, patterns, causes, and feeling emotions. She communicates with energy, then she repairs, rearranges, and guides the energy as needed to either heal the energy body or provide the energy body with what it needs to heal itself. Sarah uses these abilities both in her healing business and her radionic practice. Sarah is also a Reiki Master, certified reflexologist, radionics practitioner, and master dowser. Her passion is to help others grow and become the best version of Who They Are along the way.

with radionics practitioners who do not have this background. He believes that we can all benefit from combining ancient, proven metaphysical practices for self-development, with the continually evolving, state-of-the-art radionics instruments and related technologies. Topics will include: Breath control as a means of mind control; Mind control as an essential prelude to engaging with a psychotronic instrument; Feeling, seeing and sensing subtle energy fields; The understated importance of correct diagnosis, and protocols which support improved diagnosis; Managing the relationship between radionics healing and the Placebo Effect; How the Theta Brain Wave frequency affects dowsing, intuitive diagnosis, and how the conscious mind interacts with the radionics instrument; Nootropic supplements which can improve mental focus, brain power and imagination; Reactivation and progressive restoration of an atrophied pineal gland for multidimensional awareness; Metaphysical purification, enlivening and activation of your radionics instrument as a spiritual talisman and extension of your consciousness; Metaphysical and alchemical activation of reagents; Myths and misunderstandings about the concept of Spiritual Protection; And much more....

Stephen Quong started his study and practice of radionics and various forms of energy healing back in 1972. For the past 34 years he has had a full time, international business consulting practice, strongly influenced by his knowledge of Vedic Astrology, Feng Shui, Tao Geomancy, Vedic Gem Therapy, and various modalities of spiritual and energetic healing. He is the only American who holds the honorary title of "Life Fellow", by the Indian Council on Astrological Sciences. He was a Founding Member and on the Executive Committee of the "Planetary Gemologists Association", the foremost professional organization for Vedic Gem Therapy. He also teaches various forms of meditation and spiritual healing in the Esoteric Chinese Buddhist (Hanmi), Yoga, and Chan traditions. Other interests include crystal healing, time travel, ancestral healing, Qigong healing, remote viewing, hypnotherapy, Alchemy, and talismanic magic.

Whitni Grubaugh

Plantopathy: A Living System. Homeopathy & Cell Salts for Plant Health. Plantopathy is inspired by biodynamic and Goethean perspectives and offers a look at plant health through the lens of homeopathy and cell salts. From there, the focus shifts into application - how to use homeopathic remedies directly in the garden to support plant health. We then explore the relationship between humans and plants. Building on this foundation, we will look at mineral forces through the four bodies—physical, etheric, astral, and spirit— and create a functional model for working with tissue salts in plants. Attendees will also gain insight into how these mineral relationships express through the shared threefold system in both plants and humans (nerve, circulatory, and metabolic), offering a deeper understanding of plant development and nutrient dynamics. Finally, we'll connect these ideas to radionic practice, showing how these remedies may be applied acutely or throughout different plant stages to support coherence, vitality, and harmonization.

Whitni Grubaugh, IACH DIHom, CCH, LHP, felt a desire to connect deeper with the Southwest landscape which led to her work in desert restoration with the Center for Native and Urban Wildlife at Scottsdale Community College in the late 1990s. Her early experience in organic and biodynamic gardening, urban horticulture, plant pathology, and soil ecology inspired her to earn a BS in Applied Biological Sciences from Arizona State University in 2005. Motherhood marked a turning point in her path. Through her children's Waldorf education, she was introduced to anthroposophical principles and biodynamic gardening. Inspired to expand her focus into holistic healing, she went on to train in classical homeopathy, earning her Diploma from the International Academy of Classical Homeopathy and completing Practitioner training at the American Medical College of Homeopathy. She later received her CCH certification and homeopathic licensure and continues advanced study each year with George Vithoulkas. From 2018 to 2023, Whitney served as Program and Clinic Director at AMCoH, supporting students through their education. She is also a Reiki Master, Master Wellness and Life Coach, Death Doula, and holds a certificate in craniosacral therapy. She is currently a Bio Geometry student and pursuing a Homeopathic Doctorate.

DIY Tower Of Power Hartmann Grid Radionics Field Broadcaster.

- Use the Hartmann Grid as an antenna. • A Tower Of Power with a witness well becomes a broadcaster. • Low cost. • Easy to build and use. • No prior radionics experience needed. • Whole property protection 24/7/365. • Pollutants and geopathic stresses are automatically removed. • EMFs are transformed into healthy energies. • Radionics rates, and Intent + Expectation statements, are provided.

Robert Quick has a degree in horticulture, but most of his life has been devoted to research in the fields of alternative medicine and renewable energy. Nikola Tesla, Rudolph Steiner, Viktor Schauberger and Phil Callahan have provided him with insight on how to work with nature and replicate its procedures. He has healed himself, built and used a Browns gas fuel system for his truck, designed an electrical generator that has no moving parts and designed a solar powered steam turbine. Now that he is “retired,” his new company, Energized Water USA, makes magnetically powered reagents. The reagents are designed to remove water pollutants and improve the health of the environment. These reagents are the result of 20 years of research and development.

Spirituality and Healing. Science and Spirituality and Religion agree! There is a direct relationship between health, healing, and spirituality. Spirituality brings more light (photons) into the body. The body uses that light for healing. It turns out we ARE beings of light. So, if you want something for your 'science friends' to chew on, this class will be a good one for you!

Marty Lucas is a long-time radionic practitioner and teacher, with clients and students from around the world. He is known for his innovative approach to dealing with issues. He is a past president of the American Society of Dowsters and is a past president of the United States Psychotronics Association. His radionic coaching calls are free to the public and his website is a great resource for additional radionic and subtle energy information. www.radionics.us

is deeply rooted in subtle energies, like the ethers and the energies of the Biodynamic preps. This presentation is an introduction to Biodynamic agriculture for radionic practitioners. It will cover Rudolph Steiner and his agriculture lectures that Biodynamics came from, Steiner's concept of the Ethers, the Biodynamic preparations and their use, the Biodynamic view of a farm and the farmer, and more. The class will also show participants how to use radionics to apply biodynamic principles and practices to their farm, garden, or life.

Dan Mangum is a radionic researcher who uses radionics to maintain a garden, greenhouse, fruit and nut trees, honeybees, a handful of horses and Shetland sheep, and his dogs. He makes and sells radionic reagents and programs, an external antenna/rub plate of his own design, teaches radionic classes, and has authored 3 books on radionics. His background includes studying magick, mysticism, and world religions for 30 years. He utilizes Biogeometry, Orgone accumulators, homeopathy, and biodynamics. Dan is a licensed electrician who occasionally installs off grid solar power and lives off grid himself.

Lindsay Cline

Dowsing In Action. Come learn to increase trust in the dowsing system and make decisions quickly with more streamlined questions. Find out what actions move you and your clients or loved ones towards desired goals with greater clarity and insight.

Lindsay Cline is an energy practitioner and counselor. She founded Healing Ahava, where she works with intuitive and spiritually sensitive individuals to strengthen discernment, clear energetic blocks, and build confidence for inner wisdom. Lindsay brings experience in energy with coaching, creative facilitation, and offers a grounded yet intuitive approach to dowsing. These practices integrate emotional awareness, spiritual insight, and practical applications. Working with Lindsay is available in-person or remotely.

George Kuepper

Psychotronic Towers, Medicine Wheels, and Standing Stones. Humankind has used several means for improving agriculture and the living environment by arranging stones, constructing towers, and designing devices that mimic their subtle effects. Some go back to neolithic times; some are quite contemporary. George will describe several of these; what we "think" we know about them, and his personal experiences with a few.

George Kuepper was raised on a small farm in Wisconsin. He attended the University of Wisconsin and has spent his career working in organic and sustainable farming and gardening. He began studying and applying psychotronics to his work in 1986 and continues to do so in semi-retirement. George has authored three books and several publications on the subject and is a former Board member of the US Psychotronics Association. He lives in Northwest Arkansas with his wife and soul mate, Dee.

Norm Odell

Soils and Radionics. Explore some of the growing challenges facing agriculture and food production, including concerns surrounding soil quality and nutrient density. It will discuss why these issues may become increasingly important in the future and how radionics can be used as a tool to help.

Norm Odell has been working for BNSF railroad for 42 years. He has farmed all his life and has been certified organic for 25 years. He still hasn't graduated from the school of hard knocks but hasn't given up.

1:00PM – 2:00PM

Elizabeth (Libby) Rutledge

Light Language: How You Can Use It. There are many high energy and healing Light Languages throughout the cosmos. This talk will focus on one that Libby received beginning in 2017. There are written and spoken components to this language, and both are very powerful for healing. There will be a demonstration of the spoken part of this language, and time for the audience to share their experience of it. The audience will be introduced to the library of about 150 written "phrases" that Libby has composed. These phrases are free to download. The audience will be shown how to imprint water, to imprint objects, and to broadcast radionically or by intention. The imprinted water can be made stronger by dilution, similar to homeopathy. Imprinted water was crystallized and photographed at Dr. Emoto's Office. These pictures will be shown. Data will be shown from people who drank imprinted water, as well as from the results of broadcasting the

symbols to neutralize the radiation from the Fukushima Power Plant meltdown. The written symbol phrases can be easily paired with any other modality, and the symbols can amplify the effects of another modality. There will be an introduction to the basic structure of the written phrases, and the audience will be encouraged to create their own phrases and to submit them to the library.

Libby Rutledge is a Molecular and Cellular Biologist who has been on an extensive journey through healing. This led to exploring hypnosis, past lives, negative entities, Theta Healing Technique, crystals, Light Language, water imprinting, training in Dr. Masaru Emoto's Office, Tibetan Singing Bowls, Crystal Bowl Sound Baths, telepathy, energy balancing work, radionics, and sacred geometry sprinkled in along the way. Libby shares her knowledge of a written and spoken Light Language.
